**APSC = Adult passenger seating capacity.** The seating capacity on the registration system refers to driver plus adult passengers. Adult passenger seating of a bus does not include the driver.

**APSC - 7** means the number by which the adult passenger seating capacity of a bus is more than 7. Therefore the computer calculates the premium for seating by deducting the APSC plus driver from the seating capacity shown on the computer system.

If a vehicle falls into 2 classes specified above, the annual insurance premium is the highest fixed for any of the classes. However, if a vehicle is used only for primary production, the annual premium is subject to an upper limit of \$110.00.
